**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ishimatsu in view of Hoshino (343) and Hoshino (192).

Ishimatsu discloses the use of a High Hat Stand comprising a rod which is movable upward and downward by a foot pedal (12) so as to move a moveable cymbal up and down relative to a stationary cymbal (7), the rod being comprised of an upper rod (3) that are threadably connected in a disengageable fashion in a connecting section (see figure 2). Ishimatsu does not disclose the use of an elastic section.

Hoshino(343) discloses the use of an elastic section (40, 50) that is compressed upon connection of members and undergoes elastic recovery upon separation of the members in the connecting section.

Ishimatsu and Hoshino (343) do not disclose the specific use of upper and lower rod members

Hoshino(192) discloses a device that allows the lower rod member(75) and the upper rod member (71)to undergo elastic recovery upon separation from upper rod by element 68.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the stand as disclosed by Ishimatsu with the elastic recovery elements as disclosed by Hoshino in order prevent noise generation.

3. Claims 4-9 are allowed.

***Response to Arguments***

4. Applicant's arguments with respect to claims 1-3 have been considered but are moot in view of the new ground of rejection.
